

# 1 Project overview

CS160 is expanding by 2X. This means we need new ways of submitting, grading, and tracking student progress. Salary: 4-5K.

In a nutshell: Collecting, sharing, critiquing project based materials.

## 1.1 Review

- Review existing resources.
- EECS GSI Resources

## 1.2 Submission

- Interface with Campus Authentication
- Check into Github.
- Design-log.
- Tagging.

## 1.3 Grading

- Peer review. Assign to n-people; get critique.
- Grading criteria (spotcheck)(> Tweet patterns.)
- Plagiarism check (reverse image lookup)
- Interface with Gradebook (participation)

## 1.4 Tracking

- Mailing mechanism on groups.
- Assigning rooms to people (based on grades).
- Team evaluation
- Generate mailers (flag meeting with people)
- Mailing mechanism on groups

- Group assignment
- Shuffle dynamics

## 1.5 Publicity

- Select materials for hero-page.
- Public portfolio, archive

## 2 Important Links

- GitHub Repo

## 3 Important Dates

- **Fall Semester Begins** – Wednesday, August 19 2015
- **Instruction Begins** – Wednesday, August 26 2015
